About the Local Plan

Agreeing a Local Plan is the single most important step Tonbridge and Malling Borough Council will make this decade to safeguard the future of our borough. A Local Plan will help stop building on sites that aren't suitable for development.

At its core, the plan is about delivering more than 19,000 new homes - a target specified by the government. This will require difficult decisions about where future growth goes while managing the impact on greenfield areas, delivering environmental improvement and preserving the character of our towns and villages.

We understand that the prospect of development will arouse strong feelings in areas affected. That's why we are consulting widely and will be listening closely to the feedback you provide.

Key themes include

Delivering quality affordable homes

Protecting natural and heritage assets

Keeping our towns and villages unique

Securing better infrastructure

Get involved
